Syllabus

Course Number: HIM 480
Course Title: Administration of HIM Services

Course Description:

A comprehensive course designed to provide the student with opportunities to apply multiple elements from other courses as related to the organization and administration of a health information services department. Particular emphasis is placed on project management, operations analysis and planning, current topics, and career management.

Prerequisite Courses:

All HIM coursework should be completed prior to enrolling in this course.

Course Outcomes:

Upon completion of this course, learners should be able to:
(HIA Domains in parenthesis)

- Describe the role of the health information manager in all health care settings.
- Assess organizational readiness for EHR system planning and implementation.
- Assess how cultural issues affect health, healthcare cost, quality and HIM (VI.H.3).
- Describe, use and report data obtained from data sets such as OASIS, HEDIS, UHDDS.
- Apply knowledge of EHR principles in all health care delivery settings.
- Apply quality management tools (III.H.3.)
- Design and generate administrative reports using appropriate software and databases.(IV.C.4.)
- Identify laws and regulations applicable to health care (II.A.1.)
- Coordinate privacy requirements in various health care delivery systems
- Manage the use of clinical data required in reimbursement systems in all delivery systems.
- Develop strategic and operational plans for facility-wide information systems. (V.C.1)
- Demonstrate and apply knowledge of cost-benefit analysis techniques to justify resource needs. (V.B.3.)
- Identify and use the standards in health care delivery systems to achieve system interoperability.
- Compare and contrast the various clinical, administrative and specialty service applications used in healthcare organizations. (IV.E.1.)
- Interpret and apply current laws, accreditation and regulations for health information initiatives for all delivery systems.
- Apply general principles of management in the administration of health information services (V.D.1)
- Apply knowledge gained from all HIM coursework culminating in a final project.

**Required Texts:**

Pozgar text from HCA 423 Legal Concepts (10th edition), Shaw from HCA 425, Austin & Boxerman text from HIM 450 Information Systems (6th edition)

**Pre-Assignment:**

**Online Format:** Sign on to D2L (Home Page) and become familiar with the course navigation of the Web Curriculum.

**Pre-Assignment Due Dates:**

**Online Format:** The instructor will specify the due date for this assignment.

**Course Assignments and Activities:**

Course Policies and Procedures:

Health Information Management Domains:

This course contains the following domains, subdomains, and tasks recommended in the accreditation guidelines of the American Health Information Management Association.

**1. Domain: Health Data Management**
Subdomain I.A: Health Data Structure, Content and Standards
1.A.1. Manage health data (such as data elements, data sets, and databases).
1.A.2. Ensure that documentation in the health record supports the diagnosis and reflects the patient's progress, clinical findings and discharge status.
1.A.3. Maintain processes, policies, and procedures to ensure the accuracy of coded data.
1.A.4. Monitor use of clinical vocabularies and terminologies used in the organization’s health information systems

Subdomain I.C: Clinical Classification Systems
1.C.1. Select electronic applications for clinical classification and coding.
1.C.2. Implement and manage applications and processes for clinical classification and coding.

Subdomain I.D: Reimbursement Methodologies
1.D.1. Manage the use of clinical data required in prospective payment systems (PPS) in healthcare delivery  
1.D.2. Manage the use of clinical data required in other reimbursement systems in healthcare delivery  
1.D.4. Implement and manage processes for compliance and reporting such as the National Correct Coding Initiative.

2. Domain: Health Statistics, Biomedical Research and Quality Management  
Subdomain II.B. Quality Management and Performance Improvement  
2.B.3. Analyze and present data for healthcare decision-making (such as demonstrating quality, safety and effectiveness of healthcare).

3. Domain: Health Services Organization and Delivery  
Subdomain III.B. Healthcare Privacy, Confidentiality, Legal and Ethical Issues  

Domain V: Organization and Management  
Subdomain V.B. Financial and Resource Management  
V.B.4. Manage organization-wide coding and revenue cycle processes
