Regis University’s School of Computer & Information Sciences Student Symposium  October 8, 2009 at the DTC Campus

This event is an opportunity for students to present their research to a community of interest and practice: fellow students, faculty, and practitioners. The conference is intended to provide students a formal setting to practice their presentations prior to journal or peer reviewed conference submission. Meet other university students and faculty who share your research interests. This all-day event will be held at Regis’ DTC campus.

Call for Papers:

All students are welcome to present their papers at Regis University’s School of Computer & Information Sciences Student Symposium in October. Suggested topic areas are Computer Information Systems, Computer Science, and Information Systems. Submit papers for review to Dan Likarish at dlikaris@regis.edu.
