Prothero: Introduction

Write a 2 page essay

In the first page, based on your readings on the Jesuits, explore how they engage the human condition in the context of culture. Culture may be defined as the characteristic ways of seeing and acting in the world developed by a community over generations. In Prothero’s terms, how would the Jesuits answer the “complex question of how to become a human being”? What role does culture play in that?

In your second page, explore your own perceptions of what it means to be human and contrast this with your reflections on the first page.
