WORKS CITED

- ▶ **Alphabetize sources** by the author's last name, followed by the complete first name and initials (if any). If there is no author, editor, or translator's name, use the first significant word in the title (omit words such as "The" and "An"). Do not use separate categories for books, periodicals, etc.
- ▶ DOUBLE SPACE all entries.
- ▶ Always include the site address enclosed in angle brackets <<http://etc>> preceded by the date you accessed the site. For example,
Clinton, William. Address to the Nation by the President. 8 Aug. 1998
<http://www.state.gov/www/regions/africa/strike_clinton980820a.html>.
- ▶ Page numbers should not be included unless the electronic source provides them. Your printer will number pages differently from other printers. If the source provides a total or range of page numbers, include those in your works cited. If paragraph numbers are provided by the source, include them in the citation with the abbreviation "par." or "pars." in place of page numbers. For example,
Newsweek 210.5 (15 June 1997): 3 pp.
Postmodern Culture 8.1 (1997): 28 pars.

NOTE: The first line of all works cited is flush with the left margin and all consecutive lines are indented one tab stop (five spaces). For example,
