Case Study 6

Build a Web Site, Part 6

Overview section
In this lab you will continue working on your Web site.

Components Section
The components needed for this lab are:

- A PC connected to the internet
- HTML Editor or other tool

Lab Length: 4-6 Hours
Lab
1. This lab kind of “OPEN". Continue working on your Web site by adding one or more of the following:

Suggestions:
   Create more interactivity.
   Add interaction with a database (check out tutorials on ADO)
   If you have access to a web server try to add some Active Server Pages to your Web site – See Unit 7 in your text or visit one of those great tutorials.
   Explore some Dynamic HTML (DHTML) Functions) (Do a quick DHTML tutorial)
   Add an “Event” or two (See Unit 5, Lesson 4)

2. Describe your process. Explain the problems you had and what you learned from this exercise.

3. Send your Web pages via email to jrobinson@westnetinc.com.
